SOFTWARE DEVELOPER

Passionate Software Developer focused on creating web applications and teaching.
I am seeking an opportunity to enhance my skills while sharing my knowledge.

EXPERIENCES

15/04/2024 - 10/06/2024 | Freelance Project for Dreid Fruits (Full stack developer)

- Developed a full-stack MERN web application for an online fruit store, implementing features like user authentication, product management, and order processing.
- Enhanced the application's usability through responsive design principles.

01/12/2023 - 10/03/2024 | Active Cyber Security Partners (Full stack developer)

- Created a microservices-based web application using React.js, TypeScript, Node.js, Express.js, MongoDB, and Python, integrating APIs and advanced algorithms.
- Collaborated with the team to deliver high-quality software solutions on time.

01/04/2023 - 01/06/2023 | ENDOSMART (Internship)

- Contributed to the development of an environmental impact assessment platform using Laravel and Vue.js, gaining practical experience in web development methodologies and best practices.

2022 - 2023 | Faculty of Sciences and Techniques, SETTAT (Volunteer teacher)

- Member of a student club, teaching students to help them understand challenging modules through explanation and support sessions.

FORMATIONS

2024 - Present | Ecole Normale Supérieure de l'Enseignement Technique, Mohammedia

- Specialized master: digitizing educational processes and skills engineering (DPEIC).

31/07/2023 - 31/12/2023 | ARKx Academy

- MERN Full Stack training (bootcamp).

2022 - 2023 | Faculty of Sciences and Techniques, SETTAT

- Bachelor's Degree in Science and Technology in Information Systems and Digital Transformation.

2019 - 2022 | Faculty of Sciences and Techniques, SETTAT

- Diploma of University Studies in Science and Technology in Mathematics, Informatics, Physics.

2018 - 2019 | Lycée Mohamed Zerketouni

- Baccalaureate in Physical Sciences.
